Foundation Information

This year's event will benefit the Drive for Autism Foundation, a public foundation that was established in 2002 by the Trezza family which has donated over \$635,000 to not for profit groups that serve children with autism spectrum disorders. This is the Foundations 16th golf event and we want to thank all who have supported us over the years.

Previous recipients of grants have been the Union County Education Services Foundation, Crossroads School, The Children's Institute, Spectrum 360, Eden II Programs, Morris Union Jointure Commission, Seton Foundation, Educational Partnership for Instructing Children, AW Roberts School and Salt Brook School as well as Young Life, New Providence. The children come from various counties in NJ and NY. The children in these programs typically have difficulty with speaking, interacting, and playing with others, and relating to the outside world. Autism prevents them from being schooled in traditional classroom settings.

Autism is a neurological condition characterized by impairments in social, communicative and behavioral development. A recent study showed children diagnosed with Autism Spectrum Disorders has doubled in six years to one in 41 children in New Jersey and one in 29 boys. There is no cure for autism, but our best chance of enhancing these children's lives is through appropriate early intervention and school based programs.

REGISTRATION FORM

Single golfers are welcome or
my golf foursome includes:
Please complete fully

Golfer #1:
Address:-_____
